

# Shetland Oil Terminal Environmental Advisory Group SOTEAG

SOTEAG

## Environmentally Responsible Industrial Activity

SOTEAG is celebrating its 40th anniversary this year. It continues to develop and manage comprehensive scientific monitoring programmes that ensure the health of Shetland's marine and coastal regions, surrounding the Sullom Voe Terminal.

## Monitoring

SOTEAG'S monitoring programmes provide ongoing, unambiguous, independent assurance to the people of Shetland that the environmental impact of the terminal continues to be monitored.

## Community Engagement - Loan Boxes

Loan boxes have been created to allow schools and community groups to carry out SOTEAG related activities at your own pace. The loan boxes will be free and leaders can request a loan box through our website.

- Do you...**
- work with a community group?
  - run activities with children?
  - want to learn about your local area?

**Then...**  
Contact us to enquire about borrowing one of our activity loan boxes

*Loan Box  
contains:*

- Bird Identification game
- Feather and oil investigation
- Coastal explorer ID guides
- Seabird Snap
- Colouring sheets
- Information sheets

E-mail Heather to enquire about our loan boxes: [hsrg@st-andrews.ac.uk](mailto:hsrg@st-andrews.ac.uk)
